

What If Video Conferencing Was Easy and Affordable?

There's no substitute for face-to-face communication, especially in our mobile, geographically dispersed work environments. We can find you flexible video conferencing solutions that are affordable and easy to use.

When to Rethink Video Conferencing

Common Business Issues

Video Conferencing Benefits

You need to communicate with remote staff.

Harness high-quality, anytime, anywhere availability.

You need the ability to do live presentations.

Enjoy light-weight, mobile options—host and attend meetings from room systems or on the go.

You have concerns about the audio/video quality of a current solution.

Choose from innovative, scalable options, like wireless pairing and automated focus.

You want to know if a new solution will work with existing technology.

Leverage robust integrations across providers and technologies.

Snapshot of a Few of Our Video Partners

Why Video Conferencing From Us Is Different

Dedicated Engineering Talent

Wish you had a team of engineers to evaluate, test and recommend video technology based on your needs? With us, that's exactly what you get.

Dozens of Providers, Vetted in Minutes

Your engineers know the video conferencing space inside and out and can compare dozens of possible providers against your needs, including those ranked by Gartner as the most reputable on the market.

Industry-Best Pricing

No matter which vendor you choose, we guarantee that we can get you lower rates than you'd get by going directly to a carrier.

Unmatched Support

We'll send trial video hardware to your location so you can evaluate a potential solution in your own environment. Post sale, your dedicated account manager is the only call you have to make throughout the lifecycle of your investment.
